

Announcement of the 58th Annual Conference of the Japan Section of the RSAI

March 27, 2021

We are witnessing drastic changes in our society for tackling COVID-19. Against this backdrop, besides online sessions, the 58th Annual Conference is conducted with a hybrid method in which we implement sessions of online real time distribution systems and conventional presentations at the physical venue simultaneously. We do hope that we can provide a platform on which you can make flexible and active discussions regardless of joining online from all over the world or at the physical venue. We are looking forward to your participation.

Outline of the Conference

Date: Saturday, October 9 – Sunday, October 10, 2021

Venue: Kochi City Culture-Plaza Cul-Port (2-1 Kutanda, Kochi City)

(Large Lecture Room, 1st Study Room, 3rd Study Room, Special Study Room,
Music Room, Small Hall)

<http://bunkaplaza.or.jp/>

Program: TBA at the beginning of July 2021

Proceedings: TBA at the end of September 2021

Secretariat:

Ohtsuki Laboratory, Faculty of Regional Collaboration, Kochi University
1-5-1 Akebono-cho, Kochi City, Kochi 780-8520

Email: jsrsai2021@gmail.com

17:00-17:30 Closing Ceremony (with online real time distribution)

Public Symposium

(only in Japanese)

- Theme: Community-based Disaster Management
- Organizer: Center for Disaster Prevention Promotion, Kochi University and JSRSAI
- Date and Time: Sunday, October 10, 14:30-16:30, 2021
- Venue: Kochi City Culture Plaza Cul-Port (with online real time distribution)

- Aim:

In the “Reiwa” Era of Japan, we need to prepare for both types of disasters, Nankai Megathrust Earthquake and Tokyo Metropolitan Earthquake which occur “definitely someday” AND meteorological disasters which come “frequently.” On the other hand, Japan is facing the population getting more aging. It is necessary to invent a new way for promoting community-based disaster management from both of the hard and soft aspects.

The symposium invites Mr. Hideki KAJI (Professor Emeritus, University of Tsukuba) to address a keynote. He played an important role as the leading person in studies on urban disaster management and now he is promoting community-based disaster management as a leader of a community-based voluntary disaster management organization. He will present clues to promote community-based disaster management based on communities’ unique characteristics by integrating academic and local knowledge. Following his speech, Mr. Toshiro MATSUMOTO (Mayor, Kuroshio Town in Kochi Prefecture) will introduce advanced cases on community-based disaster management against Nankai Megathrust Earthquake in Kuroshio Town. Then Mr. Katsuo SASAHARA (Director of the Center for Disaster Prevention Promotion, Kochi University) will show roles of universities against sediment disasters and for community-based disaster management. At the end, discussion among participants will be made on how we should promote community-based disasters management in the “Reiwa” Era.

- Table of Contents

Keynote Speech: Mr. Hideki KAJI (Professor Emeritus, University of Tsukuba)

Panel Discussion (in random order):

Panelist: Mr. Katsuo SASAHARA (Director of the Center for Disaster Prevention Promotion, Kochi University)

Mr. Hideki KAJI (Professor Emeritus, University of Tsukuba)

Mr. Toshiro MATSUMOTO (Mayor, Kuroshio Town, Kochi Prefecture)

Facilitator: Mr. Satoshi Otsuki (Center for Disaster Prevention Promotion, Kochi University)
