

Announcement of the 60th Annual Conference of the Japan Section of the RSAI

April 7, 2023

The 60th (2023) Annual Conference is held in Nagoya University, and in principle, in face-to-face style. Please note, however, that depending on the infection status of the Novel Coronavirus (COVID-19) Pandemic, the style may take the hybrid form which unites the real-time presentation in on-line form with face-to-face form, or the real-time presentation in on-line form only. It is the first time in 4 years that the conference can be held in face-to-face style. We hope the meeting becomes a really precious opportunity for the member of JSRSAI to gather and exchange discussion. We warmly welcoming the members' participation.

Organizer: Graduate School of Environmental Studies, Graduate School of Economics, Graduate School of International Development, Nagoya University / JSRSAI /

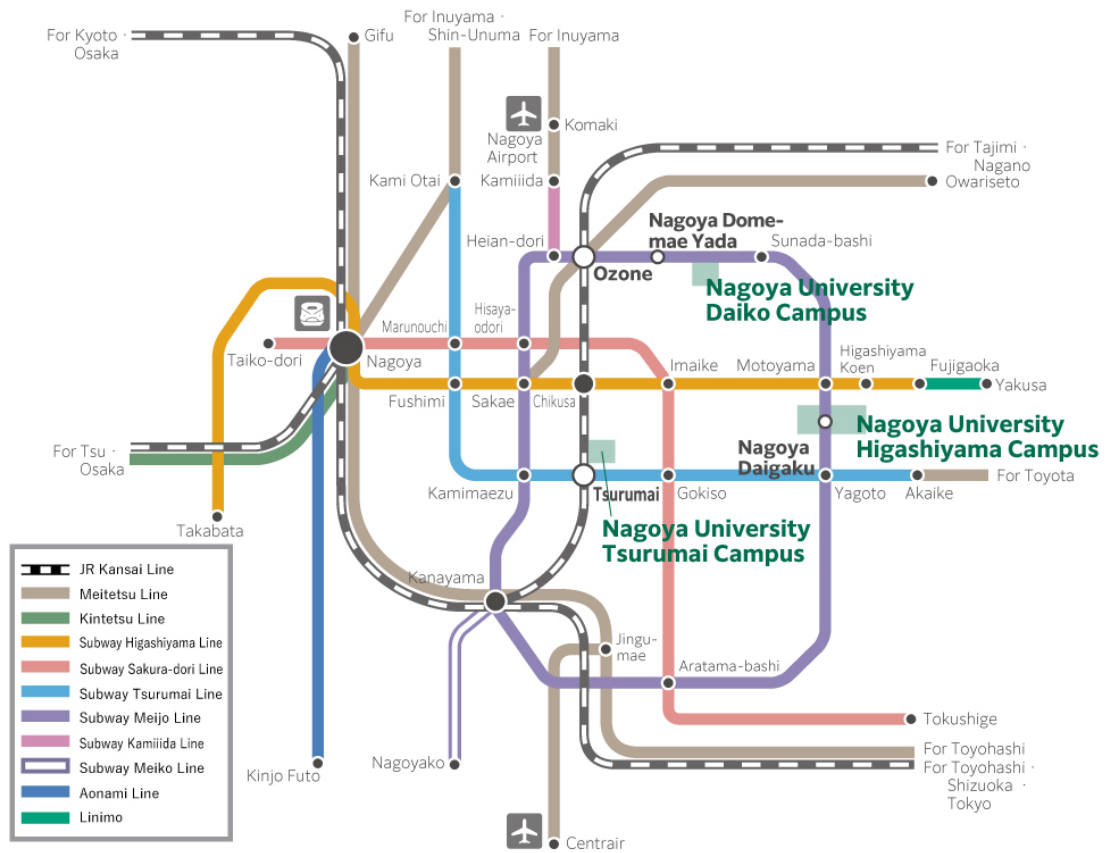

Date: Sunday, October 8, 15:00-18:00

Venue: Room S30, The 3rd floor of ILAS Building, Nagoya University

Outline: Japanese government positions tourism as the pillar of a growth strategy, and a trump of regional revitalization, and is promoting Tourism Nation Promotion Basic Law with three keywords of “sustainable tourism,” “consumption expansion” and “local- tourism promotion.” As one of the measures, formation of the attractive high tourist resort region of global competitiveness is presented. It is an important subject how we can respond to the inbound demand from overseas when we are escaping from the Novel Coronavirus (COVID-19) Pandemic.

Therefore, in a keynote lecture, the tourism measure and a tourist's trend of a Japanese government, the Tokai bloc, and Aichi Prefecture are surveyed. In a panel discussion, the practical examples and directions of community development by music in Obu City are presented by city government, musician, musical instrument manufacturing industry, and the coordinator for community development. Based on the presentation, whether the community development by music can serve as a resource for tourism are discussed. From its argument, how such community development can be applied to the tourism measure in Aichi and Tokai bloc will be shown.
